

Cerere Final Event

Which policy and financial measures for the sustainability
of alternative cereals food systems in Europe?

Cerere (Cereal Renaissance in Rural Europe) is a thematic network funded by HORIZON2020 that aims at building a network of the actors involved in alternative cereals systems. The objective of the event is to share experiences collected during the project on the sustainability of these innovative processes, including good practices from Operational Groups, formal and informal locally based farmers' networks, local authorities, small and medium entrepreneurs.

September
12-13 2019
// Paris
